Wendy –

Do you happen to know if EPA is paying for off-site water to be brought in for food producers (fruits and vegetables) who typically draw water off the Animas? We have heard that they pay for water for human and livestock, but not food crops. If some of these folks don't get water on their crops soon – and their irrigation ditches are not running – then they will lose them.

Thanks.

Darrin

Hi Darrin,

Thanks for returning my call so quickly this afternoon. I'm glad we had a chance to talk as I now have a better understanding of the issues/concerns that you are dealing with. I'm working on digging up some of the screening values I mentioned for metal levels in agricultural uses of surface water, including irrigation and consumption by livestock.

Please feel free to contact me via email or phone with any questions or concerns. In case I'm not in the office, my cell phone number is 303 514 7562.

Wendy
